PROFILE

I am currently studying software engineering at Swinburne University with a passion for programming and technology.

I worked at Movember as an intern full stack developer where I helped develop multiple projects with different technology stacks. I implemented new features and fixed bugs where required during each sprint. These projects include:

- Movember Conversations (https://conversations.movember.com/en/)

- Family Man (https://familyman.movember.com/en-au/)

- Ahead of The Game (https://aheadofthegame.movember.com/)

I also regularly participate in personal and University projects that involve JavaScript, HTML, CSS, C++, and C#. I also engage in further studies such as online courses and code camps for frontend development which led me to better understand the concepts behind HTML, CSS, JavaScript and React.

EDUCATION & QUALIFICATIONS

St Albans Secondary College - Year 12 VCE Graduated with an atar of 80.2   *2013 - 2019*

- Studied various maths subjects along with physics, and English.

Swinburne University – Bachelor of Engineering (Honours) (Professional)   *2019 – Current*

- *Major in software*

- Currently completed 200+ credit points

KEY SKILLS

- ***Technical****:* JavaScript, Typescript, React, HTML, CSS, GitHub, AWS DynamoDB ,Object oriented programming, C#, C++, Arduino, VHDL, Mat lab, and various Microsoft applications like Word, Excel, and PowerPoint.

- ***Personal:*** Responsible, problem solving, reliable, working in a team, meeting deadlines, taking initiative, and verbal communication.

WORK EXPERIENCE
